

March 31, 2025

Dear Colleague:

The *HEDIS MY 2025 Volume 2: Technical Update* is a full-text publication that includes direct edits in **red text**, in lieu of a table format referencing phrasing and edit location, and displays the exact placement of updates. Changes in this re-released publication are required for HEDIS MY 2025 reporting. With this release, NCQA freezes the Volume 2 technical specifications for MY 2025.

- **Obtaining the updated HEDIS MY 2025 Volume 2.** The re-released publication is available for download by customers with access to the HEDIS MY 2025 Volume 2 e-pub. Go to the [My Downloads](#) section of My NCQA and download the *MY 2025 Volume 2 (epub)* zipped folder, which will contain the updated *MY 2025 Volume 2* file.
- **Obtaining the Medication List Directory (MLD), Risk Adjustment Tables and updated Value Set Directory (VSD).** The final versions of the MLD, VSD and Risk Adjustment Tables for MY 2025 reporting are included in the zipped folder that contains the MY 2025 Volume 2 e-pub. Customers who do not have access to the Volume 2 e-pub may order the [MLD](#) and [Risk Adjustment Tables](#) for free from the NCQA Store.
- **Obtaining the Random Number (RAND) Table.** Starting with MY 2025 reporting, the RAND table will be released on October 15, and will be available in the NCQA Store for purchasers of the HEDIS MY Volume 2 e-pub. To obtain the RAND table for MY 2025 reporting, on or after October 15, go to the [My Downloads](#) section of My NCQA and download the *MY 2025 Volume 2 (epub)* zipped folder, which will contain the RAND table.
- **Measurement Year 2026.** NCQA is releasing specifications in a new format starting in MY 2026. Purchasers of HEDIS MY 2025 Volume 2 can download examples of measures in this new format in the [My Downloads](#) section of My NCQA. These examples are for informational purposes only, and the measures included may not be used for reporting.

The [HEDIS Audit Timeline for MY 2025](#) is available on the NCQA website.

If you have questions about the *MY 2025 Volume 2 Technical Update*, contact us through [My NCQA](#). If information in this release contradicts a previous response you received in [My NCQA](#), then the response is obsolete. We wish you a successful HEDIS data collection season!

Sincerely,

Jenna Barry, MPH
Assistant Director, Policy Measures
