

NCQA Corrections, Clarifications and Policy Changes to the 2013 PHQ Standards and Guidelines

November 25, 2019

This document includes the corrections, clarifications and policy changes to the 2013 PHQ standards and guidelines. NCQA has identified the appropriate page number in the printed publication and the standard and head/subhead for each update. Updates have been incorporated into the Interactive Survey System (ISS). NCQA operational definitions for correction, clarification and policy changes are as follows:

- A **correction (CO)** is a change made to rectify an error in the standards and guidelines.
- A **clarification (CL)** is additional information that explains an existing requirement.
- A **policy change (PC)** is a modification of an existing requirement.

An organization undergoing a survey under the 2013 PHQ standards and guidelines must implement corrections and policy changes within 90 calendar days of the ISS release date, unless otherwise specified. The 90-calendar-day advance notice does not apply to clarifications or FAQs, because they are not changes to existing requirements.

| 67 | PQ 3, Element D | Look-back period | <p>Revise the first paragraph to read:</p> <p><i>For Initial Surveys:</i> NCQA reviews a sample of files for complaints received by the organization within 6 months prior to the survey date.</p> <p><i>For Renewal Surveys:</i> NCQA reviews a sample of files for complaints received by the organization within 24 months prior to the survey date, or beginning after the completion of the prior survey, if the 24 months would extend into the prior survey.</p> <p>Note: The revised look-back period are effective beginning January 1, 2016.</p> | PC | 7/27/15 |
| 67 | PQ 3, Element D | Explanation—Exceptions | <p>Add the following as the third bullet:</p> <ul style="list-style-type: none"> • If the organization does not display physician performance information for its pay-for-performance program. | CL | 7/29/13 |
| 68 | PQ 4, Element A | Explanation | <p>Add the following before Soliciting physician input on measure selection:</p> <p>Soliciting consumer input on measure selection</p> <p>The organization solicits input from consumers or consumer representatives about the development of measures or measurement activities that the organization may be able to use in its physician measurement program. The solicitation addresses at a minimum measures to include in the program and how information about physicians should be reported to help understand what is useful and understandable to consumers. The organization may solicit input from several individual consumers or consumer groups. The organization may communicate with consumers or consumer groups through face-to-face meetings, conference calls or through surveys or direct mail. A consumer is defined as a non-health care professional who has or would utilize health care services. A consumer group is defined as an organization that advocates for people who are actual or potential users of healthcare services.</p> | CL | 11/17/14 |
