

March 31, 2026

Dear Colleague,

The *HEDIS MY 2026 Volume 2: Technical Update* provides the full, updated text for Volume 2, with all changes shown in **red text**. The changes in this re-released publication are required for HEDIS MY 2026 reporting. With this release, NCQA has frozen the Volume 2 technical specifications for MY 2026.

Accessing Updated Materials:

- **Updated HEDIS MY 2026 Volume 2.** Customers with access to the HEDIS MY 2026 Volume 2 e-pub can download the re-released publication from the [My Downloads](#) section of My NCQA. Download the *MY 2026 Volume 2 (epub)* zipped folder, which contains the updated *MY 2026 Volume 2* file.
- **Medication List Directory (MLD), Risk Adjustment Tables and updated Value Set Directory (VSD).** The final versions of the MLD, VSD and Risk Adjustment Tables for MY 2026 reporting are in the same *MY 2026 Volume 2 (epub)* zipped folder. Customers without access to the e-pub can order the [MLD](#) and [Risk Adjustment Tables](#) through the NCQA Store at no cost.
- **Random Number (RAND) Table.** The RAND table for MY 2026 reporting will be released on October 15, and will be available in the NCQA Store for purchasers of the HEDIS MY 2026 Volume 2 e-pub. On or after October 15, go to the [My Downloads](#) section of My NCQA to download the *MY 2026 Volume 2 (epub)* zipped folder and access the RAND table.

You can find the [HEDIS Audit Timeline for MY 2026](#) on the NCQA website.

If you have questions about the *MY 2026 Volume 2 Technical Update*, please contact us through [My NCQA](#). If information in this release differs from a previous response you received through My NCQA, the previous response is obsolete.

We appreciate the work you do throughout the HEDIS data collection season, and we wish you continued success!

Sincerely,

NCQA
